Course Descriptor

English Language Arts
September 2014

Level of Instruction

Intermediate Grade 9

Curriculum Overview

English Language Arts encompasses the experience, study, and appreciation of language, literature, media and communication. All language processes (speaking and listening, reading and viewing, writing and representing) are interrelated and interdependent in that facility in one strengthens and supports the others. Students become confident and competent users through many opportunities to become engaged in language arts in a variety of contexts. The curriculum guide specifies that English Language Arts be taught in an integrated manner so that the interrelationship between and among the language processes will be understood and applied by the students. This integrated approach should be based on students' prior experiences with language and on meaningful activities involving all strands of language arts.
